Your Second Page: School.html
Practising HTML

Your task is to create a new HTML page and name it School.html. Open a new HTML file and create a simple html page within your already created Website folder. This page should be about your school life, including favourite class(es), extra curricular(s), and time table (using tables) on this page include different tags for formatting text, adding images, links to a home page for now and eventually we will return to add more links later. Remember to choose appropriate colours and make any other changes you feel would enhance your page. Refer back to the example done in class and/or use the w3schools tutorials.

Items you need to ensure to include in your page:
- a comment stating your name and date
- head
- title
- body
- table
- images
- link (to the home page)
- ensure all tags are closed

Remember to find copyright free pictures when creating your webpage and to save your images in the correct spot.

Example layout for the timetable.

Mon	Tue	Wed	Thur	Fri
Period 1 PE 20	Period 2 Web Design	Period 1 PE 20	Period 2 Web Design	Period 1 PE 20
Period 2 Web Design	Period 1 PE 20	Period 2 Web Design	Period 1 PE 20	Period 2 Web Design
Lunch	Lunch	Lunch	Lunch	Period 3 Math 20-2
Connect	Connect	Connect	Connect	Period 4 Bio 20
Period 3 Math 20-2	Period 4 Bio 20	Period 3 Math 20-2	Period 4 Bio 20	Break
Period 4 Bio 20	Period 1 PE 20	Period 4 Bio 20	Period 1 PE 20	YOUnited Time
